

# What do OFSTED say about A'level Mechanics Teaching?

“The best teaching gave a strong sense of the coherence of mathematical ideas; it focused on understanding mathematical concepts and developed critical thinking and reasoning. Careful questioning identified misconceptions and helped to resolve them, and positive use was made of incorrect answers to develop understanding and to encourage students to contribute. Students were challenged to think for themselves, encouraged to discuss problems and to work collaboratively. **Effective use was made of information and communication technology (ICT).**”

**Key Finding: School should capitalise on the wide range of ICT resources to support and enhance mathematics teaching** OFSTED REPORT (HMI 2611) MAY 2006

**“IP Maths is one of the most useful programs for Advanced Mathematics teaching I have seen for some time”** Ian Wilson - Head teacher at Rydens School, Walton-on-Thames – T.E.S.

## IP Maths Order Form WEB 2008 prices valid to May 2008

Name \_\_\_\_\_  
 School / College \_\_\_\_\_  
 Address \_\_\_\_\_  
 \_\_\_\_\_
